

Mastek Rated #1 in Insurance Outsourcing in The Black Book of Outsourcing.

Edison, N.J., July 25, 2007 – MajescoMastek, a leading software solutions and integration service provider with a special emphasis on the U.S. insurance industry, announced today that its global parent company, Mastek Ltd., has been rated the number one insurance outsourcing provider, according to *The Black Book of Outsourcing*.

Mastek was ranked amongst the top fifty best managed outsourcing companies. This independent ranking of global outsourcing vendors is based on surveys of C-level executives and other outsourcing decision makers.

Mastek received the highest rating in insurance outsourcing, due “in large part for developing end-to-end mission-critical solutions,” said book co-authors Doug Brown and Scott Wilson of the Brown-Wilson Group which publishes the annual ranking.

“This ranking validates the steady growth and customer acceptance from top life and annuity global insurance companies of the end-to-end solutions we are providing at MajescoMastek,” said company president William S. McCarter. “We are pleased to have received the highest rating in the insurance segment.”

Overall, Mastek rated high in C-level commitment, corporate direction, leadership impact and human capital performance by the more than 20,000 survey respondents. The company was recognized as an “outsourcing trailblazer,” specializing in information technology and business process outsourcing. This is the first year Mastek has made it to this list and is indicative of their focus on software enabled business solutions for the insurance industry.

About *The Black Book of Outsourcing*

The Black Book of Outsourcing (Wiley Publishers) is an international business book and outsourcing resource manual written by co-authors Doug Brown and Scott Wilson of the Brown-Wilson Group. The survey solicits information from more than 100,000 global outsourcing users, decision makers, analysts, employees, and customers to compile the industry's only independent and unbiased ranking of outsourcing provider organizational performance. These rankings are esteemed by outsourcing clients, prospects, and corporate procurement officers.
