

Majesco Loss Control

Proactive Risk Management Meets Climate Tech Innovation

As the property risk landscape intensifies – driven by climate change volatility, intensifying storms, aging infrastructure, expanding risks, and rising customer expectations – insurers need smarter, faster and digital ways to identify and manage risk, control costs, drive risk resilience, communicate with customers, and protect profitability.

Majesco Loss Control, embedded with climate property intelligence and GenAI, delivers a powerful solution to assess, provide recommendations to prevent, and reduce risk within specific policies or across your entire book of business. It's more than just a tactic – it is a strategic advantage.

A Smarter, Climate-Aware Approach to Loss Control

Forget outdated, manual methods or limited technology. Our solution brings together cutting-edge automation, digital capabilities, AI-powered insights, and property data to transform traditional loss control into a modern, intelligent solution that drives risk resiliency. Whether through field surveys, digital self-service surveys or video, you can assess risk anytime and anywhere with either your adjusters or your customers with greater precision and speed.

Business Value at-a-Glance

Built-In Climate Property Intelligence

Identify property risks early and drive risk-resilient strategies to mitigate or eliminate the risk with your customers, shifting the impact of climate-driven loss trends.

Portfolio-Wide Optimization and Intelligence

Leverage intelligent insights from over 2.4B data points, 242M images, and 19.2M surveys to elevate underwriting and reinsurance decisions.

Elevated Underwriting Profitability

Use AI-driven property data model to identify and assess risk at both the individual policy and portfolio level, helping you price more accurately, negotiate reinsurance, and boost performance.

GenAI-Powered Speed & Accuracy

Complete risk surveys faster and more accurately with Majesco Copilot—delivering real-time insights and automating manual processes.

Operational Efficiency

Identify risks early, communicate with your customers to drive risk-resilient strategies that mitigate or eliminate property risks.

Core Capabilities

Digital Reach

Flexible survey options: field staff, self-surveys, or video—anytime, anywhere.

Deep Intelligence

AI and data analytics power more informed underwriting and risk decisions.

Risk Resilience

Proactively identify and address vulnerabilities before they result in losses.

Customer Value

Provide customers with risk assessments and recommendations to improve risk resiliency.

Why Majesco?

Majesco Loss Control is purpose-built for modern insurers. Fully integrated with the Majesco P&C Intelligent Core Suite, it blends climate technology, advanced data and analytics, and operational excellence into a single, seamless platform—designed to meet today's demands and tomorrow's challenges.

“Majesco Loss Control and Majesco Property Intelligence enable us to bring AI-powered risk recommendation and virtual property scoring to our customers. They are perfectly aligned with our customer-centric strategy.”

Charles Stahler
CEO, National Safety and Risk

“By integrating Majesco's Loss Control platform into CNA's processes, we can perform in-depth data mining, uncovering key metrics that will help CNA effectively and efficiently target our resources and services for policyholders. Ultimately, our policyholders will also benefit from this upgrade, having increased portal access, enhanced technical support and streamlined work products.”

Steve Hernandez
Senior Vice President, Commercial Risk Control, CNA

**Are You Ready
to Revolutionize
Your Risk
Management?**

By offering an in-depth view of the modern risk landscape and innovative tools to navigate it, Majesco's Loss Control solutions are your next-gen solution to master today's complex risk and underwriting challenges.
