

Majesco Copilot's DocScribe

Elevate document ingestion - accelerate outcomes

In today's insurance market, the need for smart, automated, and compliant document processing is greater than ever. Insurance carriers are inundated with the need to process documents at scale. This is where we introduced Majesco Copilot's DocScribe, a next-gen document processing solution that empowers insurers with intelligent automation, seamless integration, and unmatched flexibility to meet the demands of the modern insurance ecosystem. Carriers can now automate more, respond faster, and deliver better outcomes.

From Documents to Decisions

Majesco DocScribe is purpose-built to meet the document demands of insurers with ease—offering a no-code interface, reusable components, and real-time data integration. Whether it's policies, claims notices,

billing payments, loss control reports, correspondence, or compliance-related materials, Majesco DocScribe enables you to ingest and process large docs (200+pages) at speed, with sentence-level citations for every AI finding with higher throughput, lower review effort, and provable accuracy. Now, it's easier than ever to meet regulatory, branding, and operational standards, plus reduce error rates.

Intelligent Document Ingestion Engine

AI adoption surges and GenAI, in addition to Agentic AI, continues to redefine how the insurance business operates. With increasing volumes of unstructured documents across quoting, billing, claims, and loss control surveys, insurers require intelligent solutions to unlock value quickly and effectively. Majesco DocScribe brings transformational capabilities to document processing — automating interpretation, extraction, and action — while empowering insurers to enhance speed, accuracy, and efficiency.

Next-Gen Document Intelligence

Built with Majesco proprietary AI models optimized for understanding large and complex insurance documents, Majesco DocScribe enables intelligent, rules-driven document processing that's scalable and compliant. With easy-to-use tools and integration-ready APIs, insurers can automate and streamline how documents are ingested and processed to completion.

Seamless Experience

Majesco DocScribe seamlessly integrates with Majesco's Intelligent Core Suite to ensure consistent access to real-time data and streamline operations. Whether triggered by business rules or workflow events, document processing is fast, precise, and traceable.

Faster Operational Adoption

With next-gen architecture and parallelized processing, Majesco DocScribe enables rapid implementation with Majesco Intelligent solutions and seamless scalability. Empowering users to streamline their business processing quickly and cost-effectively.

Why Majesco?

Reimagine Document Processing

1 Operational Efficiency at Scale

Majesco DocScribe transforms document-heavy insurance workflows by automating data extraction, entry, and validation—cutting processing time by up to 90%. Free your teams from repetitive manual tasks and reduce downstream errors, improving overall speed, consistency, and scalability.

2 Embrace Cutting-Edge Technology

By leveraging Majesco Copilot, Majesco DocScribe enables intelligent automation that transforms insurance operations with faster decision-making, greater efficiency, improved accuracy, and reduced costs.

3 Boost Productivity

Automate the ingestion and understanding of complex insurance documents—eliminating manual data entry, accelerating workflows, and empowering teams to focus on what's important.

4 Stay Ahead of the Curve

Revolutionize how insurance documents are processed, adapt quickly to shifting industry needs, and unlock new levels of efficiency that keep you ahead of the competition.

“Majesco’s continued investment in AI and GenAI powered Copilot represents a pivotal shift in the insurance landscape. Their focus on automation and leveraging AI to optimize core business processes demonstrates a strong understanding of where the industry is heading.”
