MAJESCO P&C CORECONNECT

Your Business Is Moving Fast. Your Core Platform Should Too

majesco

Majesco P&C CoreConnect is a purpose-built core suite for MGAs and new and expanding insurance businesses across personal, commercial, and specialty lines, combining policy, billing, claims, portals, and rating with preconfigured, production-ready foundations to help teams launch products faster. With embedded analytics and open integrations, teams can modernize in phases, scale without rebuilding the core, and adopt new capabilities with less implementation effort.

Embedded Analytics **Connected Operations** **Fast Installs**

Launch new CoreConnect instance in as little as **11 weeks**

90% less upgrade effort

100+ RESTful APIs and claim APIs

WHAT MATTERS MOST

Purpose-built for MGAs and expanding insurance businesses

Launch products and programs faster

Move from configuration to go-live faster with CoreConnect Fast Installs, a preconfigured Personal Auto MGA Model Office, repeatable environments, and less implementation effort.

Keep work connected

Bring quote, rate, policy, billing, claims, portals, and embedded insights together in one connected, role-based operational core.

Modernize without disruption

Adopt new capabilities in phases, with upgrade-friendly foundations, less implementation effort, and reduced rework as products evolve.

BUILT FOR MODERN RATING OPERATIONS

Configure for program needs. Set up products and workflows around the requirements of each program, including specialty operations.

Support distribution roles. Persona-based UI and portals support underwriters, back-office, billing, claims, agents, brokers, and insurers, connecting distribution experiences to core operations.

Start from an MGA-ready foundation. The implemented MGA Model Office provides a preconfigured starting point and a practical path from demonstration to production.

> "With Majesco P&C CoreConnect that we were able to build at the very beginning, allowed us to leverage and make transactions. So we acquired renewal rights to a large book of business, and the only reason we're able to do that is because we know that we've got scalability on a platform that we can transition those policies to, and it alleviates us having to add additional staff that in a normal environment, somebody might have to look at that and say I'm going to have to go hire an additional team to go make this transition of business kind of work."

Matt Lubien
President, K2 Insurance Services

Put your insurance business in motion.
